

Statement on Rotterdam Convention on the Prior Informed Consent (PIC) Procedure

The Rotterdam Convention on the Prior Informed Consent (PIC) Procedure for Certain Hazardous Chemicals and Pesticides in International Trade was adopted on 10 September 1998 and entered into force on 24 February 2004. The text was subsequently amended.

The Convention covers pesticides and industrial chemicals that have been banned or severely restricted for health or environmental reasons by Parties and which have been notified by Parties for inclusion in the PIC procedure. Severely hazardous pesticide formulations that present a risk under conditions of use in developing countries or countries with economies in transition may also be proposed for inclusion in Annex III.

You may access the latest version of the Rotterdam Convention at <http://www.pic.int/>.

of Covestro Deutschland AG and its affiliates do not intentionally contain substances as listed above and therefore these substances are not expected to be present above limit values, if applicable. The presence of analytically detectable traces, which have possibly been introduced via raw materials, auxiliaries and additives, cannot be excluded. Specific analyses to measure such traces have not always been performed on raw materials or final products.

In the European Union, the Rotterdam Convention is implemented by Regulation (EU) No 649/2012 ('PIC Regulation') and its amendments. The requirements of Regulation (EU) No 649/2012 go beyond those of the Rotterdam Convention. Aside from certain hazardous chemicals that are subject to the prior informed consent procedure under the Rotterdam Convention (the 'PIC procedure'), the PIC Regulation also sets provisions for certain hazardous chemicals that are banned or severely restricted within the European Union.

Safety Data Sheets for EU and EFTA member states identify the relevant substance(s) and show the following sentence in section 15 of the SDS if present: "Regulation (EU) No 649/2012 concerning the export and import of hazardous chemicals. This product is subject to Regulation (EU) No 649/2012. It contains: [Substance]".
